

# Associate Veterinarian, Full or Part-time positions available

Grants Mill Animal Hospital, a privately owned small animal practice in Irondale, AL is looking to add a full or part-time associate veterinarian to our team. We have a reputation in the community for our kind, professional, fun staff and patient-centered progressive care. We desire a personable, motivated individual who thrives in a busy environment and wants to further our mission of providing high quality veterinary medicine for our loyal, diversified clientele. We are happy to mentor new grads in the position, helping them build a healthy work: life balance and developing a lasting love for the job.

Our 4700 sq ft hospital features a central treatment/workstation area, a 2-table surgery suite, 3 exam rooms, an Idexx in house lab, digital radiography (including dental), ultrasound, and therapy laser. We have an amazing, low-turnover staff with a 3:1 tech to doctor ratio. We are an AUCVM and Royal Veterinary College approved education site, and regularly host veterinary students on their preceptor and internships. We have good referral relationships with our local veterinary specialists and universities and have mobile ultrasound and internal medicine specialists that come to the clinic regularly for consultations.

As a privately owned practice, associate veterinarians are given the opportunity to build their own protocols and bring their own knowledge to improve patient care and practice management. All decisions are made in house. We foster a supportive and collaborative work environment among our veterinarians, techs, and staff; we learn from each other without criticism or competition.

## **Requirements:**

- Doctor of Veterinary Medicine from an accredited university, with licensure in good standing in Alabama
- Candidate skilled in wellness, sick, and emergency care, basic dentistry and surgical procedures

## **Benefits:**

- Health insurance (BCBS) and Dental (Delta)
- CE stipend, paid professional licenses/dues, short term disability and professional liability insurance
- 401K with company match
- Paid time off, no weekends
- Salary based on experience and schedule, but starting at \$150,000 yearly
- Bonuses based on performance and growth of the hospital
